

## Super MB STAR V4 Introduction

*Super MB STAR is the most competitive after-market- tool in Mercedes Benz diagnostic filed. It is easy to operate and up to date, powerful functions are available for professional customers! With its growth, Super MB STAR was perfected in each version, change for users make your lives become easier.*

New Version Super MB STAR V4 is released by Super MB STAR INC. ([www.supermbstar.com](http://www.supermbstar.com)) in Sept 2010. It was developed based on Super MB STAR V3.0. New functions has been released in V4 also.

Super MB STAR V4 share same encryption with earlier versions, use Super MB STAR usb key, further more, super MB STAR V4 was developed a special encryption system for each unite, the system is able to protect our users' data when they diagnostic with cars. VIN numbers and diagnostic results were well protected by our security system.

Super MB STAR V4 is same as previous version with update online function and work with any laptops. This is the original intention of the Super MB STAR we developed, we will keep and growing this function.

Users' feeling is one of the most important thing we care about, we consummate our products with users' suggestions. We make change only for you.
